Chris Ryan - "Canadian Revenue Newsletter', No. 40, of December 2002

"A procedural decision was made in late-1880 to provide a number of special brown stamps for duty-paid manufactured tobacco that had been 're-worked' into a new product. The **strip stamps**, as ordered from BABN on October 21st 1880 in various denominations of one pound or less were accompanied by brown **rectangular** five and ten pound stamps. The latter stamps did not carry a 're-worked' inscription in accordance with instructions from the Revenue Department to omit the words if their inclusion would delay production."

Chris Ryan in the "Canadian Revenue Newsletter", No. 41, of March 2003 reports that all ***brown*** and ***violet*** 're-worked' tobacco stamps were discontinued on July 1st 1883.

3rd BABN Contract (1878-1886) John McKay reports that 10,000 copies of "10 lb. Brown, Small" recess printed by hand press were delivered. These were in Division Open format.

RW-14 - 10 pounds, brown, Division Open, perf 12, on *block watermarked* medium wove - **000001** to **010000**

--- The "actual" control number range, as recorded to date ---

RW-14 - 10 pounds, brown, Division Open, perf 12, on *block watermarked* medium wove - **000528** to **010001**

The catalogue lists this recess printed ten pound brown Division Open 'Re-Worked' stamp as follows:

RW-14 - 10 pounds, brown, Division Open, perf 12, on *block watermarked* medium wove, with 4 mm. blue controls

RW-14n - 10 pounds, brown, Division Open, perf 12 (clipped), on *block watermarked* medium wove, without control numbers

The collection contains many of these *clipped imperforate* stamps (from the Morris collection) most of which under magnification shows signs of original perforation. I sincerely doubt that any philatelist would have mutilated the stamps in this manner. At the time it was illegal to possess tax-paid stamps in mint condition, and even used examples were by law to be broken on opening the package. I feel that BABN, as a favour to a philatelist, clipped the perforations prior to releasing these *control-free* stamps.

This latter stamp, ***from the Fritz Angst collection***, is an interesting correlation with the McKay reported 10,000 copies printed by BABN. Evidently, most of the other remainders were destroyed in 1883 when declared obsolete.
